Welcome to Nest Restaurant

At the heart of our restaurant lies a passion for simple, and yet superb cuisine, which starts from the very source – hand-picked ingredients. Nest is a place where every ingredient has a story, because we carefully choose products from small, local producers from all over Serbia.

Our mission is to help you get acquainted with the richness of local flavors of dishes prepared from fresh, seasonal ingredients grown with love and care.
We believe that real quality comes from small batches, hand-picked and naturally grown products, which makes each dish special.

Experience the authentic tastes of Serbia, created with care and passion, and enjoy the combination of tradition and innovation which defines our menu.
